

Version 10.08 Release date 12/9/2017

This is the latest and greatest version of our Audio Restoration Tools Software. DCart10 is the next step in audio processing evolution. With DCart10, we have added and enhanced the existing tools you know and love and we have made them much easier to find and use.

Changes since version 10.06

Added a "Check for Updates menu" to see what is the latest version

Fixed bug in the DCartunes player when using a multifilter to playback tunes

Batch editor fix when using Broadcast wave files.
